Notes

Original Source

The Registry was microfilmed in New Brunswick, and the microfilm reels are currently held at the New Brunswick Archives in Fredericton, Canada.

Transcription

Kristin Chapman Headley digitally scanned the microfilm. William Duncan and Jean Buzzell Duncan then reassembled the scans in chronological order and transcribed the names of the baptized individuals.

Illegible Names

Names that were illegible in the original register were sourced from other documents. A question mark was added next to names where the editors were unsure of the transcription.

Errors

The editors apologize for any errors they made, but also cautioned that errors are likely present in the original register itself.

Page Numbers

The page numbers in the current document were added by the editors for indexing and relative reference, as the original registry did not have numbered pages.
